Summary

I am a skilled full-stack web developer with approximately one year of experience as a freelancer. I have a deep passion for open-source contributions and excel in the web development domain, effectively meeting client requirements both in terms of design and functionality

Experience

DSB Media

Web Developer (Internship)

Thane,

Maharashtra

03/2023 - 06/2023

DSB Media is a marketing agency who offer a comprehensive range of social media solutions to help businesses of all sizes succeed. From crafting compelling content to developing targeted social media campaigns, our team of experienced professionals has the skills and expertise to drive results.

- Developed and implemented websites, front-end applications, and scalable web applications using client-specified APIs.
- Successfully handled technical tasks and ensured smooth functioning of websites and applications.
- Improved the responsiveness of web applications by implementing appropriate measures.
- Identified and resolved technical bugs promptly, ensuring optimal performance of websites and applications.

Washo

Freelance Developer

Mumbai,

Maharashtra

12/2022 - 01/2023

- Developed and enhanced Washo's internet presence by building their official website
- Utilized NextJs, JSX, JS, HTML, CSS, Animeapi, and Sheet2api to implement the following features and improvements:
- Implemented NextJs for image optimization and SEO optimization
- Utilized HTML to effectively display the main content of the website
- Utilized CSS to enhance the visual appeal and aesthetics of the webpages
- Implemented JS to add various functionalities to the website
- Utilized JSX to efficiently combine HTML and JS elements
- Incorporated AnimeJs to add captivating animations to the website
- Utilized Sheetapi to securely store and manage form data in an Excel sheet.

Projects

React Dashboard

May 2023 - June 2023

- Developed a dynamic React dashboard utilizing diverse categories of provided data, enhancing risk assessment, analytics, and data exploration.
- Utilized React to create an interactive user interface for the dashboard, facilitating seamless user interaction.
- Employed Node.js as the server framework to ensure efficient communication between the front end and back end.
- Integrated MongoDB for seamless connectivity with the database, enabling seamless execution of GET, PUT, DELETE, and POST operations.
- Utilized Chart.js to present data visualization charts such as Histograms, Pie Charts, Donut Charts, Line Charts, etc., enhancing data comprehension and analysis.

Projects

Zomato Customer Review Analysis

Oct 2023 - Nov 2023

- Developed a review analysis model using zomato customer review dataset, improving insights into customer feedback
- Utilized a stack consisting of Python, NumPy, Pandas, Matplotlib, NLTK (Natural Language Processing Toolkit), and Corpus Lib for efficient data processing and analysis
- Implemented the Bag Of Words (BOW) approach to effectively address the problem
- Enhanced the accuracy of the model by reducing text noise through the removal of common stopwords such as "the", "and", "in", and "is"
- Employed NLTK to normalize the text, converting vocabulary to the same present level for consistent analysis (e.g., transforming "loved" to "love")

Achievements

Hacktober fest-2023

completed the hacktoberfest-2023 by constantly contributing to the open source projects and getting all 4/4 PR/MR merged by the moderator.
